```
# rpm [-i][-U] [--nodeps] [AHFormatterV72_64-7.2E-R1.x86_64.rpm] [--  
prefix host_path]
```

- [-i]:New installation
Set a directory path which is extracted download package.
- [--nodeps]:
A dependence error may occur at the time of installation. In this case, please specify the '--nodeps' option.
- [--prefix (host_path)]:
The path which installs AH Formatter is specified. 'AHFormatterV72' directory is created and AH Formatter is installed in the specified path. If you do not specify this option, AH Formatter is installed to "/usr/AHFormatterV72" directory.

4. Exit the super-user

Install XSL Formatter V7 on Debian GNU/Linux

1. Extract the contents after download package file.

```
$ gzip -N -d [AHFormatterV72_64-7.2E-R1.x86_64.rpm]
```

2. Login by entering superuser. (Execute 'su' command)

3. Run the alien command to install the packages.

```
# alien -i -d -c [AHFormatterV72_64-7.2E-R1.x86_64.rpm]
```

- [-i]:Installation is executed.
- [-d]:Converts into deb package.
- [-c]:Converts script of package.

'/usr/AHFormatterV71' directory is created and AH Formatter is installed in this directory.

4. Exit the super-user

Note

- Only change the default installation location path if you do not have sufficient disk space. Otherwise, do not change the specified path.
- Installed Antenna House Formatter is **Evaluation Version**. Proceed to License File Installation.

License Key Installation

Step

1. License Key Installation.
Become root by entering the super-user. From console, copy the attached file of License Key "**ahformatter.lic**" to the AH Formatter install folder. By copying this file, the old file will be overwritten by the new one.

ex.) Sample command
cp ahformatter.lic /usr/AHFormatterV72/etc
2. Move the current directory to the installation folder of AH Formatter.
Launch console, and run to the following command.
sh run.sh -v
3. You can confirm your license has been copied.

Note

- By installing the license file, the background watermark image of the formatted result will disappear and AH Formatter can be used for business purposes.
- Please store "**ahformatter.lic**" on your computer responsibly. It will be necessary to access this file when you re-install AH Formatter.
- If you have any questions about installation, please contact us via E-Mail: info@antennahouse.com
